

Scorpio Full Moon: Underworld Return

A full moon ritual spread to help you release, reclaim, and return. Guides you through what's festering, what needs to die, what survives the fire, and the sacred vow you carry back with you.

Positions:

1. **The Descent** - What part of me is being pulled back into the Underworld?
2. **The Festering** - What pain or pattern am I being asked to face again, this time fully?
3. **The Bondage** - What belief, loyalty, or identity has kept me bound to this suffering?
4. **The Blade** - What must be named, grieved, or severed for my spirit to move forward?
5. **The Hellfire Forge** - What part of me is forged in fire, which remains when all else is ash?
6. **The Return** - What truth or version of self begins to take form as I rise from the depths?
7. **The Relic** - What medicine or power have I retrieved from the dark?
8. **The Living Oath** - How can I continue to tend my healing as a sacred act of devotion?
